

An aerial photograph of a large flock of birds, likely terns, flying over a body of water. The water is a vibrant teal color with numerous ripples and reflections. The birds are scattered across the frame, with some appearing as dark silhouettes and others as lighter shapes against the water. A semi-transparent dark teal rectangular box is centered in the image, containing the text 'SCHAEFER V33' in a light teal, sans-serif font.

SCHAEFER V33

CHARACTERISTICS

The Schaefer V33 is a contemporary and sporty 33-foot walk-around, in line with the latest developments in the American and European markets. With the option of a X2 400cv outboard engines, the Schaefer V33 is a boat that favours the outdoors, with its open bow and ample space in the aft square, without losing the convenience of a cabin for two people to stay overnight in comfort. Whether you're enjoying time with the family, fishing with friends, playing sports, spending the day or the weekend, the Schaefer V33 is a boat ready for any activity at sea.
